# Monthly Meeting Schedule – November 21, 2026

***(Subsequent meeting: December 19, 2026)***

***"Share what you know, Learn what you don't."***

*Dedicated to providing computer information and assistance to computer users, IT professionals and small business owners.*

*User groups provide an opportunity to network with other computer users and IT professionals. We offer many Special Interest Groups (SIGs) that provide tips, tricks and answers to those elusive questions.*

***Non-members are always welcome to visit and participate in two monthly meetings without charge.***

**Meetings are 3rd Saturday of each month**

***NTPCUG meets at*** Northaven United Methodist Church (NUMC)
11211 Preston Road Dallas, TX 75230

**For further information, see our site:**
**www.NTPCUG.org**

**Keep up with NTPCUG between meetings –**

***Follow Us on …***

## PowerShell 8:00–10:00 am

For November, regular guest **Sean Wheeler** of Microsoft will again lead the conversation.

Come, visit, learn how PowerShell can help you in your daily computing life.

**This SIG will meet both in-person at NUMC as well as virtually at https://bit.ly/3AMFsUy**

SIG Leader: **Tom Sweet**

## Windows Tips & Tricks 8:30 – 9:30 AM

In November, please **NOTE** that this SIG will only run for the 1st hour, then switch into Special Presentation mode. Chuck and team will provide thoughts and explanations as needed during that SIG.

As we go to press, the **Tips 'N Tricks SIG** leaders are in the process of selecting topics for presentation. Your input either before or during the SIG will help determine the topics discussed.

As always, we'll have Open Q&A.

Also, if you have a 'troubled' system (or your system has a troubled user!) please contact Chuck via email to arrange for a 'Live, No Net' troubleshooting session in front of the group.

**This SIG meets this month both in-person at NUMC *and* remotely.** If attending remotely, click **https://bit.ly/3vEoTK5 .**

SIG Leaders: **Linda Eakle, Chuck Stark, Tom Sweet**

## Artificial Intelligence (AI) 9:30 - 10:30

In November, Howard Harkness will describe how the past week in AI has been like a really bad reality TV show.

Howard plans to talk about NVDIA and Jensen Huang, but the main planned topic is "Software Development is Officially Dead." Howard has been working on a vibe-code Android app which he hopes to be able to demo for the next meeting.

Also, note that long-time member and past-President **Bill Drissel** died Tuesday night. Howard will devote a few minutes of the meeting to talking about Bill.

This presentation will be **online only** using Howard's favorite tool, ZOHO. The online meeting link is https://meet.zoho.com/znml-tmk-pns. If needed, If needed, the Meeting ID is **1067793367** and the Password is **t95Rgz .**

The meeting will go live at about 9:15 to give some time to set up & visit.

**BTW**, Howard heartily recommends ZOHO.COM for video presentations. It is ***substantially*** less expensive than Zoom (about $1/month for up to 12 participants), and has all of the features that are really needed for video presentations. I don't (yet) have an affiliate account, but I recommend it anyway.

SIG Leader: **Howard Lee Harkness**

## Special Presentation 9:30-11:30 am

In November, we will unlock the hidden potential of Windows 11! Join us for a hands-on guide to making your PC easier to see and use. We'll reveal "Power User" shortcuts, how to customize your mouse and text for better visibility, and "magic" keyboard tricks like voice typing. Plus, discover essential free tools like PowerToys and PC Manager to keep your computer fast and clean. Whether you want to reduce eye strain or simplify daily tasks, come learn how to make Windows 11 work for you!

This SIG meets this month both in-person at NUMC *and* remotely. If attending remotely, click **https://bit.ly/3vEoTK5** .

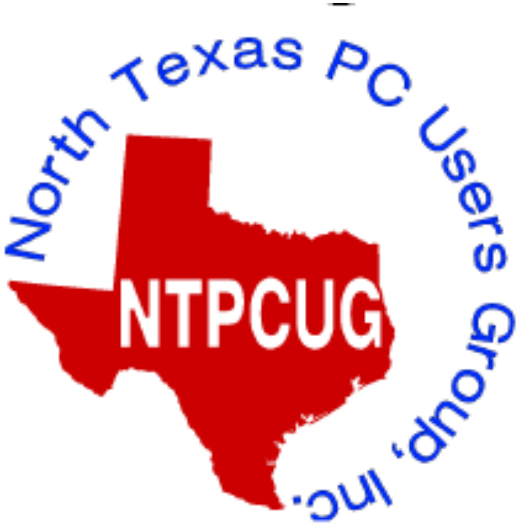

SIG Leader: **Lisa Katzenstein**

## NTPCUG Business Meeting 11:30 And Pizza !!
